

World's Safest Towing System

Available in 2 sizes!

Original Hensley Arrow®

for trailers between
5,000 and 14,000 pounds (24 feet and up)

The Hensley Arrow® is the industry leader in towing safety. The Arrow® doesn't control trailer sway...it eliminates trailer sway. For over 15 years, only one company has been able to make that claim. That company is Hensley Mfg.

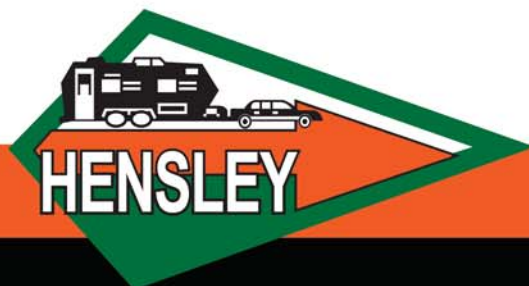

New!

Hensley® Cub

for trailers between
2,000 and 6,000 pounds
(12 to 26 feet)

Towing a light trailer but still want the absolute safest towing experience possible?

The New Hensley® Cub offers the same benefits as the Hensley Arrow®, but in a lighter package designed for the small trailer owner.

What makes Hensley® the Safest & Most Economical?

1 Safe Towing

Towing with a Hensley® Towing System is even less stressful than driving without a trailer. With a Hensley® Towing System it is impossible for a trailer to sway. Even the most inexperienced driver will find towing easy, relaxed, and SAFE.

2 Easy Hooking & Unhooking

Hensley® Towing Systems remain attached to your trailer at all times. No heavy lifting, no storage of greasy spring bars, no chain links or pry bars. Anyone can do it!

3 Smaller Tow Vehicle

Feel locked out of RVing because of the cost of a tow vehicle and the fuel to go with it? With a Hensley® Towing System, you can tow your trailer with a small SUV, crossover vehicle, or even a car.

4 Don't Get Stuck!

Worried about getting wedged into a tight gas station or campsite? A Hensley® gives you more maneuverability and a tighter turn radius than any other hitch on the market.

5 Do It Yourself Installation

Hensley® towing systems are designed for quick, easy installation. No need for expensive, professional installation.

6 The Last Hitch You'll Ever Own

Hensley® towing systems come with a lifetime warranty on all parts and service. Better yet, your Hensley® is transferable to every trailer you'll ever own. You'll never spend another dime on your towing system!
